CHIMPSTICKS™
monkey around
with your meals

NEW!

Monkeys are a lot like us, aren't they? It turns out that they like to have fun when they eat, too! Each sturdy set of **ChimpSticks** is fun to hold, easy to use, and the closest thing you'll get to being allowed to eat with your hands. The chimp is made from washable, food-grade silicone rubber, and the reusable, removable ABS chopsticks feature little simian hands on the tips. **ChimpSticks** are packaged in a clear peggable display box. Kids will go ape over them!

CHIMPSTICKS
\$4.50/ea (74 available)

CHOPSTICK kids™
Chinese with ease

Having trouble taming your chopsticks? You're not alone. You could practice for a few more years or you could just call the **Chopstick Kids** for help. These soft, washable, food-safe hinges come with a nice set of melamine chopsticks, or you can use them with your own. And they're not just for kids either – Fred uses them himself! Assorted Boy and Girl styles, nicely packaged in peggable clear display boxes. Design by Liz Goulet Dubois, Fred Studio.

CHOPSTICK KIDS
\$4.75/ea (24 available)
